

At Lakeview OB/GYN, we are implementing Meaningful Use Initiatives that are part of the HITECH provision of the American Recovery and Reinvestment Act (ARRA) of 2009, also known as the Stimulus Plan. As a result, we are collecting the government requested information below. The purpose of Meaningful Use is to ultimately improve patient care and lower health care costs. The information you provide will be used for reporting purposes only. Thank you for your participation.
